SUMMARY

Computer Science undergraduate with experience in cloud infrastructure, DevOps, and database technologies using **AWS, Linux, Docker, Kubernetes, Python, Bash, and Git**. Built multiple cloud, DevOps, and database projects involving containerization, CI/CD, infrastructure automation, and cloud deployment. Also contributed to client growth through professional business experience. Interested in Cloud Engineering, DevOps, and infrastructure roles focused on automation, scalability, reliability, and continuous delivery.

SKILLS

- Cloud:** AWS (EC2, S3, IAM, VPC, RDS), AWS Fundamentals
- DevOps:** CI/CD, GitOps, Infrastructure as Code, GitHub Actions, Basic Jenkins
- Containers & Tools:** Docker, Kubernetes, Terraform, Git
- Programming & Databases:** Python, SQL, Bash Scripting
- Productivity & Soft Skills:** Microsoft Excel, PowerPoint, Canva, Problem Solving, Communication, Teamwork

PROJECTS

Multi-Tier AWS Infrastructure

- Built scalable AWS infrastructure using Terraform, EKS, VPC & RDS.
- Improved scalability by ~30%, supporting business and traffic growth.

GitOps CI/CD Pipeline

- Automated CI/CD using GitHub Actions, Docker, Trivy & Argo CD.
- Reduced deployment time by ~60%, accelerating product releases.

Production Kubernetes Platform

- Deployed Kubernetes with Helm, NGINX Ingress, HPA & Cert-Manager.
- Improved application scalability by ~40%, supporting growing workloads.

DevSecOps Security Automation

- Automated Linux hardening, vulnerability scanning & security audits.
- Reduced security maintenance effort by ~50%, lowering operational risk.

Cloud Monitoring & Observability

- Deployed Prometheus, Grafana, Loki & Alertmanager for full-stack monitoring.
- Reduced incident detection time by ~45%, minimizing business downtime.

PROFESSIONAL EXPERIENCE

Junior DevOps Specialist — Burjsoft

May 2026 – August 2026

Internship

- Assisted with AWS infrastructure, Linux administration, Docker & CI/CD automation.
- Improved deployment workflows by ~25% through automation and DevOps practices.

DevOps & Cloud Consultant — Global Clients & Remote Projects

Worldwide Freelance

- Delivered cloud infrastructure, CI/CD and containerization solutions for global clients.
- Improved deployment efficiency by ~40%, helping businesses scale faster and reliably.

EDUCATION

Emerson University Multan

Sep 2024 – Jun 2028

Bachelor in Computer Science

Multan Public School & College, Multan

Jun 2021 – Aug 2023

Intermediate

CERTIFICATIONS & COURSES

Honhaar Jawan Program - Government of Pakistan: AWS DevOps Engineer Track, Python Programming, Ethical Hacking & Cybersecurity

Udemy: Linux Administration Bootcamp

Deloitte: Data Analytics Job Simulation

DataCamp: Understanding Cloud Computing
